**Representatives Adam Kinzinger and Peter Welch to Speak at NAESCO 10th Annual Federal Energy Efficiency Market Workshop, Washington DC, March 19th**

The National Association of Energy Service Companies (NAESCO) is pleased to announce that Congressmen Adam Kinzinger (R-IL) and Peter Welch(D-VT), co-chairs of the House Energy Savings Performance Caucus will lead a joint presentation entitled ***A Bi-partisan Approach to Energy Efficiency*** at the NAESCO 10th Annual Federal Energy Efficiency Market Workshop to be held in Washington, DC on March 19, 2015. The workshop is entitled ***Achieving Enhanced Energy Savings and Performance Objectives at Federal Facilities through Strategic Use of ESPCs and UESCs.***

Terry E. Singer, NAESCO Executive Director, said “We are very pleased to welcome Representatives Kinzinger and Welch as keynote speakers at the NAESCO Federal Market Workshop. The House Energy Savings Performance Caucus which they co-chair is a leading example of how a solidly bipartisan approach can advance the goals of accelerating the use of energy efficiency at federal buildings”.

The NAESCO Federal Market Workshop will be held at the fhi 360 Conference Center in Washington, DC on March 19, 2015. The workshop provides an informal forum for federal program managers, contracting officers, and policy makers working on energy issues at the federal level to meet with energy efficiency experts from the leading private sector companies in the energy efficiency industry.

NAESCO Federal Market Workshop attendees are Federal energy and facilities managers, Federal contracting and procurement officers, Federal energy program managers, Federal energy policy officials, ESCO representatives, public utility energy efficiency directors, and vendors active in the ESPC and UESC markets.

###

## ABOUT NAESCO

The **National Association of Energy Service Companies (NAESCO)** celebrates 32 years of advancing the energy efficiency industry. NAESCO is the leading national trade organization representing and promoting the energy efficiency industry in the energy marketplace, the media, and the government both at the state and federal level. NAESCO's active membership consists of key energy efficiency industry leaders representing ESCOs, energy efficiency and energy equipment manufacturers, suppliers, and subcontractors. NAESCO also welcomes as members engineers, consultants, financial/legal/insurance providers, government agencies, and thought leaders from the energy NGO and academic communities.

**Energy Service Companies** contract with private and public sector energy users to provide cost-effective energy efficiency retrofits across a wide spectrum of client facilities, from college campuses to water treatment plants. Effectively utilizing a performance-based contract business model, ESCOs have implemented significant comprehensive energy efficiency retrofit projects over the last three decades. Lawrence Berkeley National Laboratory reports estimate that ESCO investment in energy efficiency retrofit projects currently runs about \$5 billion a year. Since 1990, ESCOs have delivered:

- \$45B in projects
- \$50B savings – guaranteed and verified
- 425,000 person-years of direct employment
- \$30 billion of infrastructure improvements
- 470 million tons of CO2 savings at no additional cost
