## **TEN Begins a Project at Curtis Institute of Music**

December 16, 2020

Pittsburgh based The Efficiency Network, Inc, a subsidiary of Duquesne Light Holdings, begins a three-year project, valued at \$650,000, with the Curtis Institute of Music in Philadelphia.

The agreement between Curtis and TEN was developed with support from PennSEF, which uses a guaranteed savings model to ensure cost savings from lower energy bills more than cover the up-front investment.

The Curtis Institute project will invest in new lighting and building systems controls in all buildings. The project is projected to reduce the Institute's energy spending by 13% and will reduce Curtis's carbon footprint by approximately 166 MTE per year.

TEN, based in Pittsburgh, provides energy efficiency services to state and local government, higher education, healthcare, and K-12. TEN is a subsidiary of Duquesne Light Holdings.
