The Impact of the Changing Market Landscape on Energy Efficiency Investment, Project Design, and Implementation

NAESCO's **2015 Summer Workshop** will be in downtown Philadelphia in June, with a focus on the impact of the changing marketplace on the energy service industry. There will be a special emphasis on the transformative nature of LED lighting and the evolving utility industry. We will also be highlighting energy efficiency initiatives, programs, and policies in the region. The Summer Workshop provides meaningful content and lasting connections in an informal venue. Cost-effective and accessible sponsorships are available, allowing your company to reach ESCO leaders and their leading suppliers as well as policy makers, thought leaders, and customers.
