

Steam Management, Inc. Welcomes Chase Bean as Director of Engineering

Boston MA, March 14, 2022 – Steam Management, Inc. (SMI) is thrilled to welcome Chase Bean as our new Director of Engineering!

Chase will help Steam Management deliver on our commitment to fulfilling a superior customer experience and will be responsible for the development and execution of complex energy efficiency projects.

Chase comes to SMI with extensive experience in steam systems, process heating, and HVAC design engineering, and project management. His background dovetails with our growth in C&I design bid/build solutions and compliments our mature ESCO business. Chase is a registered professional engineer; he holds CEM and PMP certifications and is working towards his MBA.

"We are excited to welcome Chase to the team and are confident his expertise will lend to more opportunities for growth," said James Moore, President & CEO.

Steam Management, Inc. (SMI) is a premier energy conservation contractor, providing custom design/build solutions. Our solutions meet at the *nexus of energy and water conservation*. Learn more about SMI and its solutions at www.steammgt.com.
